

April 1, 2008

Parents and Friends of LMS,

LMS is entering the first stage of construction with the creation of our "Portable City". 12 full size portable buildings will be set up on the north side of our campus. Beginning this week, you will notice fencing, graders leveling the area, and trenching for power and new walkways. I anticipate all the portables will be in place by late April - early May. The entire "Portable City" is temporary, and will be the site for the

Main Office and half of our classrooms for next year. I may need to move the main office into our portable before school ends...more to follow on that decision. All of the other classrooms will move after school is over (on May 23rd, for LMS students), so they will have no changes to their instructional space. We will lose some of our medium sized trees located on that northern area, but we will be replanting many more. The temporary fencing will be replaced in June with permanent fencing that will remain for the 08/09 school year.

Ginny and I (as well as staff on supervision duty) will continue to discuss this new area with all the LMS students over the coming days and weeks. Your help would be appreciated. Please remind your kids to be thoughtful of this new area and not to climb on fencing or barricades. We will be open for business in the "Portable City" in a few months!

Best Regards,

Adam Fels

Principal, Louisville Middle School
