

**Manhattan Middle School of Arts and Academics
Science Club
2009-2010, Semester 1**

09-10 First Semester

Science teacher, Dan Tomlin, DT is offering a science club to enhance any Manhattan student's science experience. Students may participate in all of the dates and activities or in the ones that they are interested in. I am open to student ideas and would be willing to incorporate them into the second semester program.

The group will meet every other **Tuesday** from **4-5:30 or till 6:30** if driving is part of the activity. Sometimes we will have weekend activities, such as the Saturday caving trip. We will go on or have about 9 outings/activities per semester. 10-16 students will participate in each activity. Students will participate in related science enrichment activities.

Schedule

Date	Event
9/1	1. Aquarium set-up and fish gathering (fishing) for the DT's classroom pond tank
9/19	2. Noxious weed hike and study with Doctoral Candidate David Knochel; in connection with curriculum development for the USDA, BVSD-Kim and DT and the Uni. of Colorado* from 9-2 pm
10/6	3. Hike up Green Mountain from Super Flagstaff*
10/17	4. Local Caving Trip 8-1 PM-Fault Cave Golden Colorado
10/27	5. Cretaceous Fossil Hunting or CU Boulder Museum*
