

## VALENTINES DAY!!!!

Parents,

We will be celebrating Valentine's Day next Tuesday, February 14<sup>th</sup>. Our Valentines' Day party will be filled with fun math activities and a RED and PINK feast!!!

Our Valentine festivities will include:

- Conversation Heart Candy math: sorting, counting, graphing, comparing, adding, and eating!!!
- Valentine Number BINGO-focusing on teen numbers
- Ending with a yummy party filled with healthy RED and PINK treats....: Strawberries, apples, heart shaped muffin/cupcakes, and cranberry juice!

The children will be making Valentine bags on Friday for their card exchange in class. Please help your child with their Valentines cards for their classmates (if you choose to do so).

Attached is a class list with all the children's names. This is a great opportunity for your child to practice writing their name and their classmate's names using lowercase letters. Have fun!

- If your child wants to bring Valentine Cards, **please** have your child bring them for **ALL** of their classmates in their integrated group. They are also welcome to bring them for friends in other classes.
- Homemade cards are great too!
- Candy is **not** necessary or needed!
- We will be having our parties in our integrated homeroom groups

Have a wonderful week!

☺ The Kindergarten Team ☺

**\*\*We need parents to help contribute food for our party. Please call one of your child's two teachers if you are able to do so. Thank you!\*\***
