Conferences

It was so great to see all of you at the conferences! We appreciate your willingness to partner with us in helping your child experience academic success at school, as well as healthy, happy social interaction!

story.

Thank you again for all you do, volunteering and supporting us and your children at Columbine!

Parent support

Thanks for all of you who are reading with your child every day! For them to read with you and see you reading and writing makes a huge difference in their learning and attitude.

Literacy

We are hoping to begin reading some legends as we study the Anasazi and Plains Indians who lived in Colorado. We are also in various stages of researching about the wild animals of our state. We are also striving to put more descriptive language into our writing, whether it be a journal entry, informational paragraph, or a fiction story.

Math

In math, it is vitally important that each student learns the addition and subtraction facts ($7+9=16$, $16-9=7$)! These are the basis for much of what we teach in math. Right now we are studying measurement, perimeter, and geometry. Ask your child what tools we use to measure in math and science or weigh something!

Upcoming Events

- **Oct. 31**—Halloween parade and parties 1:40-3pm
- **Nov. 10**, **Carnival and Report Cards go home**
