

## Safety Contract

1. Safety is of the utmost importance in the classroom, computer lab, library and laboratory area. Follow all safety rules always.
2. No food or drink is allowed in the classroom, computer lab, library or laboratory area.
3. The equipment for both science and technology is expensive. Equipment is always to be used appropriately. Report any problem with or breakage of equipment at the beginning of class, otherwise you will be responsible for the repair costs and may be removed from further equipment use.
4. Personal belongings other than that used during class belong in you locker.
5. Never work in the lab unless a teacher is present and aware of what you are doing.
6. Prepare for the lab activity or experiment by reading it over first. Ask questions about anything that is unclear to you. Note any cautions that are stated.
7. Wear safety goggles when working with flames, heated liquids, or glassware.
8. Never throw anything in the laboratory.
9. Use the equipment only as instructed in the directions or by your teacher.
10. Report any injuries, accidents, or breakages to your teacher immediately.
11. Work quietly so that you can hear any announcements concerning cautions and safety.
12. When you have finished your work, check that all materials and equipment are returned to their proper locations.
13. Clean up the work area.
14. The consequences of disregarding any classroom rule may result in removal from the activity. Repeated offenses may result in permanent removal from all activities.
