

**Dear Parents,**

**As stated in the Athletic Registration packet, BVSD will not provide transportation to all athletic events. What this means to our athletes and parents is that we can no longer provide the same services in which we are accustomed. However, we will strive to make the travel inconveniences as minimal as possible. The bulleted items below are the travel limitations imposed for the 10-11 school year:**

- **One way transportation to all BVSD athletic contests and areas within the surrounding area to be determined by Athletic Director.**
- **No transportation on Saturdays with exceptions.**

**Athletes and families will now provide their own transportation home from away contests on most weekdays depending on where the contest is located. Also, athletes and families will now have to provide their own transportation to and from contests on Saturdays. In cases where the travel is extensive, transportation will be provided to and from the contest (weekdays only). For example, if the contest is in Greeley, transportation will be provided both ways. If the travel is to Longmont, athletes and families will have to provide their own transportation.**

**Coaches will share the bus schedule with you. Sue Fischer will have copies of the transportation schedule in her office.**

**It is unfortunate that BVSD can no longer provide full transportation coverage to all contests. We believe that it is better to save money on transportation than eliminating or reducing programs.**

**Sincerely,**

**Paul Roper  
Director of Athletics**
