Week of _____

Weekly Writing Assignment #13

Word Bank:

1. electricity	6. magnetism	11. attraction
2. electromagnet	7. patent	12. polarity
3. filament	8. repel	13. generator
4. lightning	9. static	14. propulsion
5. lodestone	10. conductivity	15. current

Question: In Science, we are learning about electricity and magnetism. Write a paragraph explaining what you are learning in Science. What has been your favorite experiment? What has been the most surprising thing? Before you write your first draft, use the web below to PLAN your paragraph. The next night after planning, write your first draft. Then use one night to edit – and change/add details and word choice – and Thursday night to re-write on another sheet of paper. Be sure to re-read your second draft to check for spelling, conventions, and sentence structure.

Response (rough draft form)

Name _____

Week of _____
