

Embracing Technology to Understand Your Child's World

With Cyber Psychologist, Dr. Linda Young

TWO PRESENTATIONS WILL BE OFFERED:

TUESDAY, OCTOBER 14, 2008

7-9PM

FAIRVIEW HIGH SCHOOL, BOULDER

WEDNESDAY, OCTOBER 15, 2008

7-9PM

CENTAURUS HIGH SCHOOL, LAFAYETTE

It's not uncommon for children to be more tech-savvy than their parents. As a result, it can be difficult for parents to understand what their kids are doing online. However, when they approach their children in an informed way about their online activities, technology can have a very positive effect on relationships and family lives. Dr. Young will share practical ideas for raising kids on life's internet highway.

Dr. Linda Young is a nationally recognized psychologist and Qwest communications expert. Visit www.Incredibleinternet.com for more information.
